

MISSOURI PUBLIC SERVICE COMMISSION

JOB OPPORTUNITY

ENGINEER

State regulatory agency seeks Utility Engineering Specialist I/II to perform analysis related to energy issues that affect Missouri's investor owned utilities and their customers.

The employee in this position will perform analysis of customer usage used to develop current revenues in rate cases, perform studies for electric and natural gas utilities related to allocation of costs between cost-of-service classes and conduct studies and evaluations of Infrastructure System Replacement Surcharge (ISRS) filings and related rate case filings. This position will also handle customer complaints and inquiries related to engineering aspects of electric and natural gas utility operations.

Graduation from an accredited four (4) year college or university with a Bachelor's degree in Engineering. Must have a working knowledge of the principles and practices of engineering. Good verbal and written communication skills and experience in word-processing, spreadsheet, and/or database required. Assistance in attaining PE certification is available.

Starting annual salary: Utility Engineering Specialist I is \$39,288 – Utility Engineering Specialist II is \$42,756 with a potential increase at the end of a successful probationary period. Relocation assistance is available. To be considered for this position, please submit application, resume, transcripts, and a one or two page technical writing sample by **October 15, 2004** to the Missouri Public Service Commission, **Reference Number UO121004**, Human Resources, P.O. Box 360, Jefferson City, Missouri 65102. For additional information please visit <http://www.psc.mo.gov>.
